

**Technical requirement:**

Pretreatment		Painting		Water Treatment	
Chemical	Mechanical	Powder	Liquid	Deionizing plant	Wastewater

**1. Contact details:**

Company name:	
Address:	
Tel./fax:	
E-mail:	
Contact person (position):	

**2. Products:**

Description	length mm	width mm	height mm	weight kg	thickness mm	productivity: pieces/hour
Metal:						
Hard-to-reach places:						
Necessary quality chemical processing	(hours in salt fog chamber)					
Conditions of use:	Indoors _____ Atmospheric conditions _____					

**3. Pretreatment:**

Contamination on the surface of products: Corrosion \_\_\_\_\_ Oxidation scale \_\_\_\_\_ Oil \_\_\_\_\_ Graphite \_\_\_\_\_

Method of treatment before painting: Immersion plant \_\_\_\_\_ Spraying tunnel \_\_\_\_\_ Mechanical \_\_\_\_\_

Cycle of chemical processing: \_\_\_\_\_

**4. Painting**

Equipment (guns) automatic \_\_\_\_\_ manual \_\_\_\_\_

Number of colors used and the frequency of color changes: \_\_\_\_\_

Time and temperature of drying paint \_\_\_\_\_

For liquid painting:  
 - the number of layers of paint \_\_\_\_\_  
 - drying time, T°C between layers \_\_\_\_\_

**5. Other information**

What is used for heating: Gas \_\_\_\_\_ Diesel \_\_\_\_\_ Compressed gas \_\_\_\_\_ Electric power \_\_\_\_\_

The size of location: \_\_\_\_\_

Estimated time for testing: \_\_\_\_\_

Attached Drawings \_\_\_\_\_ Pictures \_\_\_\_\_ Foto \_\_\_\_\_

Existing equipment Description/manufacturer \_\_\_\_\_
